

TEACH ONE, REACH MANY

JULY 2010

## Building Advanced Programs in Mongolia

Last month marked IVUmed's third joint pediatric and general urology workshop in Ulaanbaatar, Mongolia. The workshop brought together a highly skilled and dedicated multinational partnership with the shared goal of enhancing the quality and availability of urological training and care in Mongolia. After successfully completing prior workshops, training at both pediatric and adult hospitals has now advanced to include more complex cases. While building upon previous trainings, the goal of volunteer efforts is to help the Mongolian medical partners become independent in delivering much needed urological care. We are especially grateful to all the IVUmed volunteers, members, and donors who helped make the workshop a success.

## The Importance of Our Members

As a member of IVUmed, you are an important part of the global health community. Your membership contribution will assist in building sustainable surgical programs that have been established in over 30 resource poor countries in Africa, Asia and Latin America. In addition to the countless hours and expertise donated by many dedicated volunteers, your membership is vital in helping to meet the growing need for quality surgical care. Become a member of our circle today and receive a signature IVUmed scrub cap.

- \$50 - Volunteer Circle
- \$100 - Teacher Circle
- \$250 - Dr. Joseph W. Segura Endourology Circle
- \$500 - Dr. Pieter A. deVries Pediatric Circle
- \$1000 - Leadership Circle

## Thanks for a Successful AUA Meeting

IVUmed enjoyed a strong presence and even stronger support at last month's annual meeting of the American Urological Association in San Francisco. Thanks to prominent booth locations, our annual Scholars Reception and the efforts of volunteers, we were able to educate many more about IVUmed and its mission. Additionally, the first World Congress of Pediatric Urology provided an outstanding opportunity for our partners from throughout the world to meet and collaborate. We look forward to building upon the medical and industry contacts we made during the event.
